1 **SEC. 2. FINDINGS.**

2 Congress makes the following findings:

3 (1) Learning is an active process that begins at  
 4 birth, is dependent on the existence of strong and  
 5 stable relationships, is influenced by a child's phys-  
 6 ical, emotional, social, and cognitive capacities, and  
 7 is shaped by a combination of biology and experi-  
 8 ence.

9 (2) Before children reach the age of 2 years,  
 10 measurable differentiation in their development and  
 11 skills begins to appear. In the absence of interven-  
 12 tion, that differentiation may increase over the pre-  
 13 school years.

14 (3) Early childhood, which is the period in a  
 15 child's life from birth through the age of 6 years, is  
 16 a critical time for children to develop the physical,  
 17 emotional, social, and cognitive skills they will need  
 18 for the rest of their lives. Good nutrition and health  
 19 care are essential to maximize the development proc-  
 20 ess.

1           (4) Young children receive care in a wide vari-  
2       ety of settings. While 38 percent of young children  
3       receive care solely from their parents, the remaining  
4       62 percent receive care through a variety of full-time  
5       and part-time arrangements, including by relatives,  
6       by nonrelatives (in a variety of home-based settings),  
7       and through center-based programs.

8           (5) The cognitive, social, and emotional develop-  
9       ment of young children can be enhanced through pa-  
10      rental involvement and high-quality early care, and  
11      developmentally appropriate early education activi-  
12      ties.

13          (6) Research indicates that successful academic  
14      achievement in education programs for children in  
15      kindergarten and grades 1 through 12 is linked to  
16      participation in high quality early care, including ac-  
17      cess to health care and nutrition, and early edu-  
18      cation activities.

19          (7) The United States will be stronger now and  
20      in the future if the Nation invests in its children  
21      today.

 16 **HABITS**

17 **SEC. 301. SHORT TITLE.**

18 This title may be cited as the “Improved Nutrition  
 19 and Physical Activity Act” or the “IMPACT Act”.

20 **SEC. 302. FINDINGS.**

21 Congress makes the following findings:

22 (1) An estimated 61 percent of United States  
 23 adults and 13 percent of children and adolescents  
 24 are overweight or obese.

1           (2) The prevalence of obesity and being over-  
2           weight is increasing among all age groups. There are  
3           twice the number of overweight children and 3 times  
4           the number of overweight adolescents as there were  
5           29 years ago.

6           (3) An estimated 300,000 deaths a year are as-  
7           sociated with being overweight or obese.

8           (4) Obesity and being overweight are associated  
9           with increased risk for heart disease (the leading  
10          cause of death), cancer (the second leading cause of  
11          death), diabetes (the 6th leading cause of death),  
12          and musculoskeletal disorders.

13          (5) Individuals who are obese have a 50 to 100  
14          percent increased risk of premature death.

15          (6) The Healthy People 2010 goals identify  
16          obesity and being overweight as one of the Nation's  
17          leading health problems and include objectives of in-  
18          creasing the proportion of adults who are at a  
19          healthy weight, reducing the proportion of adults  
20          who are obese, and reducing the proportion of chil-  
21          dren and adolescents who are overweight or obese.

22          (7) Another goal of Healthy People 2010 is to  
23          eliminate health disparities among different seg-  
24          ments of the population. Obesity is a health problem

1 that disproportionately impacts medically underserved  
2 populations.

3 (8) The United States Surgeon General’s report  
4 “A Call To Action” lists the treatment and preven-  
5 tion of obesity as a top national priority.

6 (9) The estimated direct and indirect annual  
7 cost of obesity in the United States is  
8 \$117,000,000,000, which exceeds the cost of to-  
9 bacco-related illnesses and appears to be rising dra-  
10 matically.

11 (10) Weight control programs should promote a  
12 healthy lifestyle including regular physical activity  
13 and healthy eating, as consistently discussed and  
14 identified in a variety of public and private con-  
15 sensus documents, including “A Call to Action” and  
16 other documents prepared by the Department of  
17 Health and Human Services and other agencies.

20                  (E) what these studies have shown about  
 21                  the causes of, prevention of, and treatment of  
 22                  overweight and obesity; and

23                  (2) recommendations on further research that  
 24                  is needed, including research among diverse popu-

#### 4 **SEC. 395. GRANTS AND CONTRACTS FOR A NATIONAL CAM- 5 PAIGN TO CHANGE CHILDREN'S HEALTH BE- 6 HAVIORS.**

7 Section 399Y of the Public Health Service Act (42  
 8 U.S.C. 280h–2) is amended by striking subsection (b) and  
 9 inserting the following:

10 “(b) GRANTS.—

11 “(1) IN GENERAL.—As part of the campaign  
 12 described in subsection (a), the Secretary, acting  
 13 through the Director of the Centers for Disease  
 14 Control and Prevention, shall award grants or con-

 16 culturally and linguistically appropriate and com-  
 17 petent campaigns to change children’s health behav-  
 18 iors.

19 “(2) ELIGIBLE ENTITY.—In this subsection, the  
 20 term ‘eligible entity’ means a marketing, public rela-  
 21 tions, advertising, or other appropriate entity.

22 “(3) CONTENT.—An eligible entity that receives  
 23 a grant under this subsection shall use funds re-  
 24 ceived through such grant or contract to utilize mar-  
 25 keting and communication strategies to—

1           “(A) communicate messages to help young  
2           people develop habits that will foster good  
3           health over a lifetime;

4           “(B) provide young people with motivation  
5           to engage in sports and other physical activi-  
6           ties;

7           “(C) influence youth to develop good  
8           health habits such as regular physical activity  
9           and good nutrition;

10          “(D) educate parents of young people on  
11          the importance of physical activity and improv-  
12          ing nutrition, how to maintain healthy behav-  
13          iors for the entire family, and how to encourage  
14          children to develop good nutrition and physical

22          cation, Labor, and Pensions of the Senate and the

24          of Representatives.

1       “(c) AUTHORIZATION OF APPROPRIATIONS.—There  
 2 is authorized to be appropriated to carry out this section,  
 3 \$125,000,000 for fiscal year 2004, and such sums as nec-  
 4 essary for each of fiscal years 2005 through 2008.”.

## 5       **Subtitle K—Sense of the Senate**

### 6       **SEC. 399. SENSE OF THE SENATE CONCERNING NUTRITION.**

7       (a) FINDINGS.—Congress makes the following find-  
 8 ings:

9               (1) Key child nutrition programs are up for re-  
 10 authorization in the 108th Congress, including the  
 11 School Breakfast Program, School Lunch Program,  
 12 Special Milk Program, Child and Adult Care Food  
 13 Program, Summer Food Service Program, and the  
 14 Women’s, Infant’s, and Children’s (WIC) Program.

15              (2) The United States Department of Agri-  
 16 culture reports, based on national United States  
 17 Census Bureau data, that in 2000 10.5 percent of  
 18 all United States households, representing  
 19 20,000,000 adults and 13,000,000 children, were  
 20 “food insecure”. Of the 11,000,000 households that  
 21 were food insecure, 3,300,000 suffered from food in-  
 22 security that was so severe that USDA’s very con-  
 23 servative measure classified them as “hungry”.  
 24 2,700,000 children lived in these hungry households.

1           (3) Households with children experience food  
2           insecurity at more than double the rate for house-  
3           holds without children.

4           (4) Mental and physical changes accompany in-  
5           adequate food intake which can have harmful effects  
6           on learning, development, productivity, physical and  
7           psychological health, and family life. These effects  
8           are particularly harmful to children, and can have a  
9           lasting impact.

10          (5) The Surgeon General has established as an  
11          important health objective, to increase the food secu-  
12          rity from 88 percent of all United States households  
13          (in 1995) to 94 percent by the year 2010.

14          (6) A national survey of emergency feeding pro-  
15          grams conducted by America's Second Harvest in  
16          2001 found their food bank network of emergency  
17          food providers served 23,000,000 people in a year,  
18          9 percent more than were served in 1997, and more  
19          than 9,000,000 of those served were children.

20          (7) United States Conference of Mayors data  
21          indicates that between November 2000 to November  
22          2001, only one-third of the major cities surveyed re-  
23          ported that they were able to provide an adequate  
24          quantity of food to meet the need. Eighty-five per-  
25          cent of the cities reported that emergency food as-

1       sistance facilities have had to decrease the quantity  
2       of food provided or the number of times families or  
3       individuals may receive food. Across the cities sur-  
4       veyed, 54 percent of those requesting emergency as-  
5       sistance were either children or their parents. The  
6       average increase in the number of families with chil-  
7       dren requesting emergency food was 19 percent.

8               (8) Adequate nutrition in the earliest years of  
9       life is essential for healthy child development and for  
10      school readiness.

11              (9) Congress recently enacted, and the Presi-  
12      dent signed into law, the No Child Left Behind Act  
13      to increase student academic achievement. Numer-  
14      ous studies indicate that hunger can have a detri-  
15      mental effect on a child's ability to learn and thrive  
16      in school.

17              (10) Food insecurity and overweight frequently  
18      co-exist in the population.

19              (11) Federal child nutrition programs can be an  
20      efficient and effective means to reduce hunger, re-  
21      duce overweight prevalence, and promote healthy  
22      eating habits among children in the United States.

23      (b) SENSE OF THE SENATE.—It is the Sense of the  
24      Senate, that as Congress works to reauthorize the child  
25      nutrition laws of the United States, it should—

1           (1) carefully evaluate elements of those pro-  
 2           grams to strengthen efficiency and effectiveness, in-  
 3           cluding streamlining program administration, reduc-  
 4           ing paperwork burdens, and simplifying access for  
 5           parents;

6           (2) improve the healthfulness of meals served,  
 7           as well as that of other foods and beverages made  
 8           available in schools;

9           (3) strengthen the educational component of  
 10          the programs to encourage healthy eating habits and  
 11          promote physical activity;

12          (4) review eligibility guidelines, and reimburse-  
 13          ment rates; and

14          (5) provide significant additional funding to  
 15          carry out these and other vital priorities to make  
 16          sure pregnant women, and children from infancy  
 17          through school have access to nutritious food to opti-  
 18          mize health and prevent overweight.

24          Section 2003(c) of the Social Security Act (42 U.S.C.

1 (1) in paragraph (10), by striking “and”;

2 (2) in paragraph (11), by striking “and each  
3 fiscal year thereafter.” and inserting a semicolon;  
4 and

5 (3) by adding at the end the following:

6 “(12) \$2,800,000,000 for each of the fiscal  
7 years 2004 through 2008; and

8 “(13) \$1,700,000,000 for the fiscal year 2009  
9 and each fiscal year thereafter.”.

## 10 **TITLE V—EXPANDING THE FAM-** 11 **ILY AND MEDICAL LEAVE ACT**

### 12 **SEC. 501. SHORT TITLE.**

13 This title may be cited as the “Family and Medical  
14 Leave Expansion Act”.

### 15 **SEC. 502. FINDINGS.**

16 Congress makes the following findings:

17 (1) Since the enactment of the Family and  
18 Medical Leave Act of 1993 (29 U.S.C. 2601 et seq.),  
19 more than 35,000,000 Americans have taken leave  
20 for family or medical reasons.

21 (2) Of those taking leave under the Family and  
22 Medical Leave Act of 1993, 52 percent took the  
23 leave for their own serious health conditions, and 26  
24 percent took the leave to care for a new child or for  
25 maternity disability reasons.

1           (3) While the leave provided by the Family and  
2       Medical Leave Act of 1993 has proven to be a crit-  
3       ical resource for millions of Americans, too many  
4       people are left behind because the Act provides only  
5       unpaid leave.

6           (4) According to a 2000 Department of Labor  
7       survey—

8                (A) 3,500,000 Americans needed family  
9       and medical leave but could not afford to take  
10      time off without pay;

11              (B) nearly four-fifths (78 percent) of those  
12      surveyed who needed the leave but did not take  
13      it said they could not afford unpaid leave;

14              (C) nine percent of those taking family and  
15      medical leave and receiving less than full pay  
16      during their longest period of the leave had to  
17      go on public assistance to cover their lost  
18      wages; and

19              (D) seventy-three percent of those taking  
20      family and medical leave had incomes above  
21      \$30,000.

22           (5) In 1970, only 27 percent of mothers with  
23      infants under age 1 were in the labor force.

24           (6) In 1999, nearly 60 percent of mothers with  
25      infants under age 1 were working.

1           (7) Worldwide, 128 countries of the 172 re-  
2           sponding to an International Social Security Asso-  
3           ciation survey in 1999 provided at least some paid  
4           and job protected maternity leave, and, on average,  
5           provided 16 weeks of basic paid maternity leave. In  
6           some countries, paid maternity leave is mandatory  
7           and in others it is voluntary.

8           (8) A European Union directive mandating 14  
9           weeks of paid maternity leave was adopted as a  
10          health and safety measure in 1992.

11          (9) Among the 29 Organization for Economic  
12          Cooperation and Development (OECD) countries,  
13          the most advanced industrialized countries, the aver-  
14          age period of childbirth-related leave (including ma-  
15          ternity, paternity, and parental leaves) is 44 weeks  
16          (10 months) with additional time provided in some  
17          countries for leave to care for a sick child. In those  
18          countries, the average duration of paid childbirth-re-  
19          lated leave is 36 weeks.

20          (10) In more than half of the OECD countries  
21          (16 countries), the cash benefit provided while on  
22          the paid childbirth-related leave replaces between 70  
23          and 100 percent of prior wages.

1           (11) Among the OECD countries, adoptive  
 2           mothers and adoptive parents are increasingly eligi-  
 3           ble for the paid childbirth-related leave.

### 6           **SEC. 511. SHORT TITLE.**

7           This subtitle may be cited as the “Family Income to  
 8           Respond to Significant Transitions Insurance Act”.

### 9           **SEC. 512. PURPOSES.**

10          The purposes of this subtitle are—

11               (1) to establish a demonstration program that  
 12               supports the efforts of States and political subdivi-  
 13               sions to provide partial or full wage replacement,  
 14               often referred to as FIRST insurance, to new par-  
 15               ents so that the new parents are able to spend time  
 16               with a new infant or newly adopted child, and to  
 17               other employees; and

18               (2) to learn about the most effective mecha-  
 19               nisms for providing the wage replacement assistance.

### 20          **SEC. 513. DEFINITIONS.**

21          In this subtitle:

22               (1) EMPLOYER; SON OR DAUGHTER; STATE.—

23          The terms “employer”, “son or daughter”, and  
 24          “State” have the meanings given the terms in sec-

1       tion 101 of the Family and Medical Leave Act of  
2       1993 (29 U.S.C. 2611).

3               (2) SECRETARY.—The term “Secretary” means

11      families by providing, through various mechanisms,  
12      wage replacement for eligible individuals who are re-  
13      sponding to—

14               (A) caregiving needs resulting from the  
15      birth or adoption of a son or daughter; or

16               (B) other family caregiving needs.

 12       under the Family and Medical Leave Act of  
 13       1993 (29 U.S.C. 2601 et seq.), other Federal,  
 14       State, or local law, or a private plan, for a rea-  
 15       son described in subparagraph (A) or (B) of  
 16       section 102(a)(1) of the Family and Medical

6                   daughter under age 1; or

7                   (C) at the option of the eligible entity, an  
8                   individual who has an absence from employ-  
9                   ment and has other characteristics specified by

11                  subsection (e).

12               (e) APPLICATION.—To be eligible to receive a grant  
13               under this section, an entity shall submit an application  
14               to the Secretary, at such time, in such manner, and con-

16               cluding, at a minimum—

8           subsection (a), as described in paragraphs (1) and  
9           (2)(C) of subsection (d);

10          (5) if the project will expand on State and pri-  
11          vate systems of wage replacement for eligible indi-  
12          viduals, information on the manner in which the  
13          project will expand on the systems;

14          (6) information demonstrating the manner in  
15          which the wage replacement assistance provided  
16          through the project will assist families in which an  
17          individual takes leave or is absent from employment  
18          as described in subsection (d)(2); and

19          (7) an assurance that the applicant will partici-  
20          pate in efforts to evaluate the effectiveness of the  
21          project.

22          (f) SELECTION CRITERIA.—In selecting entities to re-  
23          ceive grants for projects under this section, the Secretary  
24          shall—

25                (1) take into consideration—

1 (A) the scope of the proposed projects;

2 (B) the cost-effectiveness, feasibility, and  
3 financial soundness of the proposed projects;

4 (C) the extent to which the proposed  
5 projects would expand access to wage replace-  
6 ment in response to family caregiving needs,  
7 particularly for low-wage employees, in the area  
8 served by the grant; and

9 (D) the benefits that would be offered to  
10 families and children through the proposed  
11 projects; and

12 (2) to the extent feasible, select entities pro-  
13 posing projects that utilize diverse mechanisms, in-  
14 cluding expansion of State unemployment compensa-  
15 tion benefit programs, and establishment or expan-  
16 sion of State temporary disability insurance pro-  
17 grams, to provide the wage replacement.

18 (g) FEDERAL SHARE.—

19 (1) IN GENERAL.—The Federal share of the  
20 cost described in subsection (a) shall be—

21 (A) 50 percent for the first year of the  
22 grant period;

23 (B) 40 percent for the second year of that  
24 period;

1 (C) 30 percent for the third year of that  
 2 period; and

3 (D) 20 percent for each subsequent year.

4 (2) NON-FEDERAL SHARE.—The non-Federal  
 5 share of the cost may be in cash or in kind, fairly  
 6 evaluated, including plant, equipment, and services  
 7 and may be provided from State, local, or private  
 8 sources, or Federal sources other than this subtitle.

9 (h) SUPPLEMENT NOT SUPPLANT.—Funds appro-  
 10 priated pursuant to the authority of this subtitle shall be

 12 and local public funds and private funds expended to pro-  
 13 vide wage replacement.

14 (i) EFFECT ON EXISTING RIGHTS.—Nothing in this  
 15 subtitle shall be construed to supersede, preempt, or other-  
 16 wise infringe on the provisions of any collective bargaining  
 17 agreement or any employment benefit program or plan  
 18 that provides greater rights to employees than the rights  
 19 established under this subtitle.

20 **SEC. 515. NOTIFICATION.**

6           the Family and Medical Leave Act of 1993 (29  
7           U.S.C. 2612(g)), as added by section 518, against  
8           the total amount of leave (if any) to which the em-  
9           ployee is entitled under section 102(a)(1) of that Act  
10          (29 U.S.C. 2612(a)(1)).

11 **SEC. 516. EVALUATIONS AND REPORTS.**

12          (a) AVAILABLE FUNDS.—The Secretary shall use not  
13          more than 2 percent of the funds made available under  
14          section 517 to carry out this section.
